

My local Sinclair station, Fox 35, is not serving our community in the least.

Sinclair encouraged them to NOT broadcast a tribute to those fallen in Iraq.

Sinclair will not allow true local news to be broadcast.

Most heinous of all, and the fact that should cause their license to be revoked and

fines enforced, is the complete partisan nature of their broadcasting. It is one thing to

express an editorial position, but Sinclair is purposely deceiving viewers with their fake

documentaries that some people would think is news -- and factual.

It is your job to make sure this kind of behavior is punished, or else we might as well

all go put on our yellow stars, turn a blind eye to our neighbors predicament, and be

prepared to relive the history we have failed to learn from.
